

## Unit: Health – Prescriptions

### Objective

Ps will understand the process of getting a prescription  
Ps will practice vocabulary associated with getting a prescription

### Materials

- **Large prescription picture flashcards**
- **Getting a Prescription**

### Step 1 Warm Up (10 minutes)

#### Introducing the idea of prescriptions:

- Put all the **large prescription picture flashcards** on the board with tape in the correct order to tell a simple story. Ask them what is happening motioning to the pictures. Can anyone tell you? Point to the prescriptions (picture of medicine) and ask what is this? Can you get them to identify doctor or sick?

### Step 2 Work out (30 minutes)

#### Learning about prescriptions:

- Tell the story.
  - Sick
  - Doctor
  - Doctor gives prescription
  - Pharmacy
  - Prescription
- You can add more vocabulary to the story if the Ps are able to understand a little more such as I am very sick, I go to the doctor etc.
- Tell the story several times pointing at the pictures. Have them repeat.
- Point and see if they can tell you the story.
- Hand out the **Getting a Prescription** and go over the story with them again.
- In pairs have them tell their partner the story using **Getting a Prescription** as a guide.

### Step 3 Cool Down (15 minutes)

#### Check their understanding:

- Go back to the **large prescription picture flashcards** on the board and ask each Ps to tell the story as best he/she can.
