

Entry Program for Older Adult Immigrants

Class information for the participants:

- Please do not be late for your session. Come a few minutes before the session starts to get settled.
- We only have a limited amount of sessions, so please try to attend them all. Absences should only be if you are sick or have an appointment.
- If you are sick or have an appointment and can't come to your session you must call and report the absence. It is very important that you call to say you will be absent. Your teacher will provide you with the information on how to call.
- If you don't call to report an absence and you have missed 2 weeks of school we will call to follow up on why you have missed your sessions. If you continue to miss without calling we may have to ask you to leave the program to make room for someone else.
- If any personal information changes such as address, phone number, contact person, you must report these changes to your facilitator immediately.
